Dear parents/guardians,

As we're sure you're aware, there is a big focus in the world right now on climate change and how we can help prevent some of the serious implications of this. As a school, we already do lots to help our planet, including recycling, reusing and switching off unnecessary lights or appliances. We've also reduced the amount of plastic used in school and encourage children to bring in a reusable water bottle every day. However, we understand that plastic is sometimes used in our everyday lives, such as with milk bottles or bottles of squash.

So, we are asking for your help in collecting the lids from any of these plastic bottles and donating them to school, so that we can create a thought-provoking piece of art made from them. Think of how many lids we can prevent from going to a landfill or ending up in our oceans!

Please rinse your bottle lids and then send them into school with your child, for their class teacher to collect. We are looking for a range of colours and sizes to create our art work.

Thank you, as always, for your continued support.

Mrs Redmond
