

Autumn 1 - All About me

Our focus

We focus on the prime areas- this under pins our curriculum

- Communication and language
- PSED
- Physical development

In addition to this, we explore wider learning experiences through our Topic lessons – We incorporate 'Amazing Arts', 'The World Around us', Computing, Music and much more!

Maths

In The Sparkle Room, we teach a number of skills throughout the year and each half term we focus on a specific maths topic. Each child will follow a personalised maths curriculum using their individual scheme of work.

Science

- To recognise different parts of our body
- To recognise different facial features
- To explore healthy foods
- We will participate in a range of exercises and explore the impact it has on our bodies.

This is how we

Literacy

- To engage and respond during story sessions
- To concentrate on the correct grip and formation of letters through tracing, colouring, copying names & free writing activities.
- To recognise and begin to write name.
- To form letters appropriately.
- Experience mark making with a range

Reading

Your child will read everyday in school.

Please ensure your child reads daily at home.

History

- To recognise themselves and familiar adults
- To observe and comment on photographs from the past and the present
- To role-play
- To observe and use language such as old, new and a long time ago

PSED

- To recognise the different emotions we and others can feel
- To respond to self-regulation strategies
- To positively react to the feelings and behaviours of others

Life Skills

My Social Self

- To explore and become familiar with adults in the room.
- To become aware of the transitions and the structure of school life
- To communicate with adults
- To learn the names of adults and children in the room
